

Achieve Excellence

We question the world around us and seek to do things better

We love to challenge the status quo and to have our thinking challenged in return. We seek to make things better, regardless of our role. This gives us confidence that when we commit to a course of action, we will be successful and deliver real value.

We value and foster expertise

As individuals we are expert in our roles. As a collective we are expert in tertiary admissions. Together with our stakeholders, we value this expertise and recognise its importance for our future. We seek opportunities to build on our expertise and develop our collective capability.

We are innovative and agile

We always look for new and creative ways to meet the needs of our stakeholders in an ever-changing environment. We take an adaptive approach to the future and embrace new and emerging opportunities. We understand the strategic importance of new ideas and technologies that may impact our industry.

SATAC

Our people, our values
