### Early Undergraduate Offer Round 20 December 2018

Dear Principal,

This year for the first time, SATAC will be conducting an early undergraduate offer round on 20 December 2018, shortly after SACE/NTCET results are released to students.

This offer round will consider first preferences only, and not all courses will be issuing offers in this round. Most courses with strict quotas (such as Medicine and some courses with auditions, interviews or other additional application requirements) will not make offers in this round. Assessment activity by SATAC will not cease in the lead up to this offer round and the online application will be open to all usual activity, including the facility for applicants to update preferences and offer responses.

Changes of preference made immediately before the offer round however, may not be considered if reassessment of the application by SATAC is required. This offer round should be considered an early opportunity to receive an offer to some courses. Students who do not receive an offer in this round will be considered in the main January offer round which considers all preferences and all undergraduate courses.

An email will be sent in late November 2018 to all current year 12 applicants applying for undergraduate 2019 admission to inform them of this additional offer round. This information will also be shared at the Metro Counsellor Sessions (25–27 July) and the Northern Territory Counsellor Sessions from (2–3 August 2018).

Please find attached a list of those courses **not** making offers in the 20 December offer round. You will also find the list on SATAC's website [www.satac.edu.au](http://www.satac.edu.au)

Yours sincerely,

Mr Stuart Mossman  
Chief Executive Officer
