Notes

Prior year information cannot accurately predict ATARs for students in future years.

The relationship between the university aggregate and ATAR changes every year, and is dependent on the population of 16 – 20 year olds in South Australia and the Northern Territory.

For example, in 2015 an aggregate of 80.0/90.0 converted to an ATAR of 95.20. In 2016, an aggregate of 80.0/90.0 converted to an ATAR of 94.75.

‘ATAR’ refers to the Australian Tertiary Admission Rank.
